To the members of the City Council and City Manager,

I am submitting an overview of police operations and statistical data regarding police operations for the year 2024. Included in this data are statistics acquired from the Mercer County Emergency Management Agency and the Sharon Police Department's records management system which tracks incident reports. Some of the data is also retrieved from the command and supervisory staff's own record keeping.

In this narrative, I will highlight some of the important figures relating to policing the City of Sharon. While some of these figures may indicate even closed cases, discussion about specific cases may not be possible due to the cases not being fully disposed of as the court level, to preserve the integrity of some cases, and some due to statutory restrictions such as the Criminal History Records Information Act.

It should also be noted that not all crimes are reported, some crimes are investigated by other agencies, and not all data is contained in this report. This information is as accurate as available information allows.

**Staffing**

In the calendar year of 2024 the Sharon Police Department the Sharon Police Department's complement of full-time police offices reached 31, and 1 full-time clerk, and 1 part-time clerk.

## Equipment

During 2023, the Sharon Police Department upgraded the man-doors leading into the sally-port building entrances including key fob capabilities.

Through grant funding, all-new computers (desktops, laptops, and cruiser (MDT) computers were purchased that will be used in conjunctions with a newly acquired Records Management System, which is National Incident Based Reporting System compliant.

Additionally, through grant and donation funding the Digital Forensics program has been upgraded with newer equipment and new analysis software, that allows for storage capacity and proper function of the software.

Digital Forensics Lab

Through the Rose of Sharon Lodge # 3 Fraternal Order of Police, gym equipment was purchased and has been placed inside the police department, allowing a space for police department employees to exercise and to promote wellness.
